More moisture by design®

## Take a leaf out of the Mediterranean

Heart disease is the leading cause of death in Australia, and what we eat is closely linked to this. Olive Leaf Australia aims to help in the fight against heart disease, utilising fresh-picked leaf extract, which has 400 per cent more antioxidant power than the equivalent amount of vitamin C.

Olive Leaf Australia Olive Leaf Extract is designed to support a healthy immune system and is made directly from fresh leaves, making the key ingredients easily bio-available.

Among other things, olive leaf extract has a positive effect on hypertension, boosts good cholesterol, and boost levels of antibodies. For a natural approach to combating heart disease, turn to the Mediterranean. Olive Leaf Australia Olive Leaf Extract 500ml RRP \$39.95
