## Olive Leaf Extract awarded

09 June 2011

The Australian Women's Weekly has awarded Olive Leaf Australia's Olive Leaf Extract the "2011 Health & Wellbeing Product of the Year Award".

Olive Leaf Extract is a natural health supplement made directly from fresh-picked olive leaves. The powerful antioxidant provides cardiovascular support and assists in supporting the maintenance of normal heart function.

The product is a proven hit with consumers, with more than 1000 bottles of Olive Leaf Australia's Olive Leaf Extract every day.

Olive Leaf Australia's Scott Tindall says the secret to the product's success is its freshness. "Unlike products made from dried leaves or reconstituted from powder, our olive leaves are picked at sunrise and prepared for bottling the same day."

"Winning the Australian Women's Weekly Award is a great honour and testament to the effectiveness of our fresh-picked Olive Leaf Extract."

With so many beauty brands on the market, beautydirectory is a wonderful resource to keep track of what's available and who's looking after it.
