

Take a Leaf from the Olive Tree this Winter!

Monday March 9, 2009 – For immediate release

With health concerns on the increase and another winter about to chill its way across Australia our bodies need to be more resilient than ever. If mainstream medical products aren't your bag then turn your attention to nature's longest living energy booster, the olive tree.

Renowned for its remarkable health-giving qualities, the olive tree has flourished for thousands of years, fighting off centuries of heat and cold, and viral, bacterial and fungal attacks. The secret to its longevity? *Compounds in the olive leaf itself*. Packed with antioxidants and other natural defence compounds, the olive leaf has amazing healing properties which have made it one of the world's longest-lasting natural health tonics - over 4,000 years so far!

Olive Leaf Australia's *fresh-picked* liquid extract is now one of the country's most sought-after natural health supplements, with more than 1,000 bottles sold every day, and a notable increase leading into the winter months.

Due to their unrivalled freshness, purity and quality, Olive Leaf Australia's Extracts:

- Have more than 30 times the cell-protecting antioxidants of extra virgin olive oil,
- Are 100% natural, fast-acting & multi-use
- Are always made from fresh-picked leaves (not dried leaf or reconstituted from powders)
- Contain a very broad spectrum of natural phytonutrients

With a whopping 400% more antioxidant power than Vitamin C, last winter saw this Australian success story hailed by retailers in the UK as the country's 'Best New Health Product' and described as the 'Hottest New Product' in USA's *Healthy Living* magazine. Antioxidants will protect your body from harmful free radical damage, relieve fevers and improve quality of sleep and energy levels this winter.

Available in four sizes including a 30 day supply 500ml bottle (RRP \$39.95), a 200mL Mixed Berry flavoured extract for children (RRP\$23.95), and the easy-to-use, portable 20ml Oral Spray (RRP \$16.90). Olive Leaf Australia's extracts are available at most pharmacies and all health food stores nationwide.

You can expect results in just 20 days!
